

inolight CL6

Dual coil arc pocket lighter

No flame, no gases, no fuels, recycled, rechargeable, eco-friendly, flight approval, all-weather: The inoLight CL 6 dual coil arc pocket lighter incorporates technology into a great looking compact metal shell with rechargeable Lithium-Ion battery. All of this fits in the palm of your hand and your pocket! This technology means no flame or fuel and is powered by a high intensity electric arc ready at the touch of a button. The lighter also has a safety feature, so it will not light up when the lid is closed. Simply charge up via USB and you're ready to go.

Highlights

- Dual arc lighter featuring rechargeable 3.7V Li ion battery
- No fossil fuels necessary - neither Butane nor Gasoline
- High heat intensity, no flame
- Wind- and waterresistant
- Small-sized and sturdy-built metal housing featuring status LED and light effect
- Easy to use, internal fuse (auto-off after 10 seconds)
