speaker

IMPERIAL BAS 7

Stylish, versatile design: the IMPERIAL BAS 7 is not only an absolute eye-catcher, it also has great sound, is easy to operate and has additional features. The Bluetooth speaker generates 5W output power and creates a great atmosphere in combination with the LED ambient lighting, which can be switched into different modes. Another highlight is the wireless charging function of the IMPERIAL

BAS 7: On the top there is an induction field, which can be used for wireless charging of suitable mobile phones.* In addition, thanks to the integrated Li-Ion battery, the speaker can also be used independently of an electrical outlet making it ideal for use when travelling.* Wireless charging function only possible when connected to electricity.

Highlights

- Mobile Bluetooth speaker with 5W power
- Stylish, 2-colour design, LED ambient lighting with different switching levels
- Bluetooth 5.0 with over 10m range
- Wireless charging function for mobile phones (max.5W 2A)
- Bluetooth speakerphone

- Great for mobile use thanks to the integrated 3.7V Li-Ion battery (1200 mAh) with a short charging time

Connections

- 1x Micro USB (Power supply)

LED ambient lighting
