

if supported by provider and software

Functionalism meets craft and technology, a next-generation audio device that beats at the heart of your musical ecosystem, providing whatever soundtrack you need. Radio from around the globe, access to your personal music collection or an almost limitless supply of songs from the world's leading music streaming services. Thanks to the inclusion of UNDOK technology, music can be wirelessly distributed to other compatible devices in your home to establish a sophisticated multiroom audio environment, controllable via an app for iOS or Android devices.

SuperConnect is equipped to receive a wide range of digital radio standards including DAB, DAB+, FM with RDS and wi-fi internet radio - providing access to over 36.000 stations from around the world. SuperConnect's ability to communicate with external devices and services is unrivalled. Wireless lan and Bluetooth technology enable wireless music playback from smartphone or tablet in high quality and streaming services like Spotify, amazon music or Deezer provide up to 100 million songs in digital quality and can be played directly with the REVO SuperConnect.

SuperConnect is available in three distinct colour combinations, each with an all-wood cabinet, anodised aluminium and mild steel facia and backplate. A graphical OLED display and joystick control add a touch of modernity, while patented audio electronics and BMR driver technology deliver 15W of clear digital audio with clarity and deep, rich bass.
